BUYING NUCALM FAQS

FAQs

1. What is NuCalm?

NuCalm is the world's most powerful, patented, clinically proven neuroacoustic software platform designed to safely and reliably change your mental state on demand without drugs. Backed by over 33 years of neuroscience, NuCalm used to be an FDA Class III Medical device that was exclusively sold to doctors, pilots, professional athletes, the US military special forces, the FBI, and cancer patients for $5,995. In November 2021, NuCalm successfully transitioned to a consumer subscription and lowered the price by over 99%. The complex neuroacoustic software underneath beautifully composed music is now easily accessed through a mobile app; it's like having a remote control for your brain in the palm of your hand. Simply select the channel (outcome) you want, put on a pair of quality headphones, and press play. If you want to focus, listen to Focus; if you want to recover, listen to Rescue; if you want to feel creative, listen to FlowState; if you need a quick recovery and healthy energy boost, listen to PowerNap; if you want to perform at peak levels with high intensity, listen to Ignite; and if you want to sleep, listen to DeepSleep.

FAQs

2. What do I get when I subscribe to NuCalm?

You get immediate access to NuCalm by subscribing, creating your account, and downloading the NuCalm mobile app onto a mobile device. All the NuCalm subscriptions are neuroacoustic software only, except for Mastermind, which comes with the "clinical strength" NuCalm biosignal processing discs + a welcome package + a NuCalm travel bag + 2 premium NuCalm eye masks + a copy of the book about NuCalm, called "A New Calm," authored by Dr. Michael Galitzer and Larry Trivieri, with the Foreword written by Tony Robbins, and the Preface written by the monk, Brother Craig Marshall.

3. What do I need to use NuCalm?

- A mobile device
- A quality headphone or in-ear buds for all the channels, except for DeepSleep. A portable speaker is best for DeepSleep to listen to at bedtime.
- An eye mask for Rescue, PowerNap, and FlowState

4. Who can use NuCalm?

Any human on Earth, from infancy to end of life. NuCalm can do no harm. There are no side effects, and there have been no reported adverse events across millions of NuCalm experiences around the world.

FAQs

5. How do I use NuCalm?

Rescue, PowerNap, and FlowState are all immersive experiences, meaning, for each one, you should find a safe, comfortable place to lay down, put on an eye mask and your best headphones, select your journey, press play, and enjoy.

For Focus or Ignite, you put on your best headphone, or in-ear buds, select your journey, press play, and do whatever task you are doing, such as studying, walking, chores, exercise, drills, etc.

For DeepSleep, you simply play any journey in your bedroom at bedtime through a speaker.

6. Which NuCalm plan (subscription) is best for me?

FAQs

9. Are there any guarantees or money-back trials?

Yes, we guarantee that NuCalm works. It has been proven across the globe, with millions of people, thousands of doctors, over 2,000,000 surgical procedures, used by the US military since 2013, and used by the world's top athletes since 2011. The technology has been patented, regulated, evaluated, and independently researched since 2009. NuCalm works and does exactly what it is intended to do – change your mental state on demand by pacing brain wave frequencies to a desired outcome, from the deepest levels of sleep to the highest levels of intensity. The only way that NuCalm does not work, is if you don't use it.

Over the past 4 years, we have successfully transitioned NuCalm from an FDA Class III medical device that sold for $5,995, to a consumer subscription available through a mobile app for as low as $0.50 per day. Consider the price of $14.99 per month as our way of allowing you to try NuCalm for one month with no continued obligation.
